GlowUp - Local Service Website Redesign

Task Overview

GlowUp is a mobile-first local salon service website redesign focused on improving user experience, lead generation, and customer conversions. The project was created to provide users with an easy and modern way to explore salon services, understand pricing, and quickly book appointments.

The redesign includes:

- Homepage
- Service Detail Page
- Contact / Lead Generation Page

The project was designed using Figma with a clean and conversion-focused UI approach.

Problem Statement

Many local salon service websites have outdated interfaces, poor mobile responsiveness, unclear service information, and weak booking flows. Users often struggle to navigate services or contact businesses quickly.

This redesign aims to solve these issues by creating:

- a mobile-friendly interface,
- clear navigation,
- simplified booking flow,
- and strong call-to-action sections.

Objective

The main objective of this project was to redesign a local service business website that:

- improves usability,
- increases user engagement,
- supports lead generation,
- and encourages faster appointment booking.

The design also focuses on creating a professional and modern user experience suitable for real-world salon businesses.

Target Users

The website is designed mainly for:

- Women looking for salon services at home
- Brides searching for bridal makeup services
- Busy users who prefer mobile booking
- Users looking for quick consultation and easy appointment scheduling

The redesign primarily targets mobile users for a smoother smartphone experience.

Pages Designed

Homepage

The homepage introduces the brand and highlights:

- hero section,
- service categories,
- testimonials,

- trust indicators,
- and sticky CTA buttons.

Service Detail Page

The service page provides:

- detailed service information,
- pricing packages,
- included features,
- FAQ section,
- and booking CTA.

Contact Page

The contact page focuses on lead generation through:

- inquiry forms,
- service selection,
- date selection,
- WhatsApp support,
- and sticky contact CTA.

UX Decisions

Several UX decisions were made to improve user interaction and accessibility.

Mobile-First Design

The entire interface was designed using mobile frames to ensure better usability for smartphone users.

Sticky CTA

Sticky call-to-action buttons were added to improve booking accessibility while scrolling.

Clear Visual Hierarchy

Typography, spacing, and section layouts were organized to guide users naturally through the interface.

Simplified Navigation

The design avoids unnecessary complexity and focuses on quick access to services and booking actions.

Trust Building

Sections such as ratings, testimonials, certified professionals, and hygienic products were included to improve user confidence.

Conversion-Focused Features

The redesign includes several conversion-oriented elements such as:

- prominent CTA buttons,
- simplified contact forms,
- easy booking flow,
- WhatsApp integration,
- pricing transparency,
- testimonials for trust,
- and sticky mobile CTA bars.

These features were added to improve user engagement and encourage appointment bookings.

Design System

Color Palette

- Primary Color: Pink/Red Accent , Secondary Elements: Soft Gray
- Background: White

Typography

- Clean and modern sans-serif typography
- Bold headings for hierarchy
- Readable spacing for mobile screens

UI Style

- Rounded buttons and cards
- Minimal and clean layouts
- Soft shadows for depth
- Consistent spacing throughout the interface

Tools Used

- Figma
- Material Symbols Icons
- Google Fonts

Conclusion

The GlowUp redesign successfully transforms a traditional local salon website into a modern, user-friendly, and mobile-first experience. The design focuses on usability, accessibility, and conversion optimization while maintaining a clean and professional visual style.

This project demonstrates:

- UI/UX design thinking,
- mobile-first design principles,
- conversion-focused layouts,
- and structured user flow suitable for real-world local service businesses.
